Re: Notice of Ex Parte Statement
WT Docket No. 01-309

Dear Ms. Dortch:

On Monday, August 29, 2005, Mary Brooner and John Welch, on behalf of Motorola, met with members of the staff of the Office of Engineering and Technology, including Bruce Franca, Bruce Romano, Julie Knapp, Dr. Rashmi Doshi, Martin Perrine, Patrick Forster and Alan Scrimme. The purpose of our meeting was to provide the FCC with an up-date on Motorola's activities to meet the requirements for hearing aid compatibility that take effect on September 16, 2005.

In the course of this meeting, Motorola stated that it is supportive of the Cingular petition to waive HAC requirements for the 850 MHz band and its recommendation to use only the 1900 MHz M ratings as an interim short term solution. Motorola also stated that it supports the waiver petition of T-Mobile for an additional 60 days to comply with GSM product. Motorola advised the FCC that GSM 1900 products identified to support T-Mobile's HAC product portfolio had unexpectedly not achieved an M3 or better rating when tested and reviewed for HAC certification by the TCB. Motorola learned this information on August 17 and informed T-Mobile on August 18, 2005. Motorola reported to the FCC that it is presently seeking HAC certification for other product to support T-Mobile and that some additional time will be needed by T-Mobile to receive the product and implement its carrier obligations.

Motorola also stated that it supports the recommendation of the ATIS Incubator to re-open the ANSI standard for the 850 MHz band and to re-examine the probe modulation measurement methods. Motorola also stated that further due diligence is needed for the 1900 MHz GSM portion of the HAC standard, ANSI C63.19, to insure that it predicts what it purports to predict.

Pursuant to Commission Rule 1.49(f), this ex parte letter is being filed electronically via the Commission's Electronic Comment Filing System for inclusion in the public record of WT Docket Number 01-309.

Sincerely,

Mary E. Brooner
